## The Value of any Store May Be Safely Judged By the Service It Gives

The average shopper has no difficulty in finding sufficient stores. But what she is vitally concerned with is the store that specializes in giving Value and Service 365 days in the year—a store every article from which reveals some intimation of honest, reliable, trustworthy business principle.

She's sure of that kind of a store here. And, she demonstrates her appreciation by patronizing liberally—and that, no doubt, is why the J. C. Penney Company's business is growing so rapidly.

It is not merely accidental that the business of this Store is increasing steadily. It is due to the fact that the sterling principle of Value-Giving upon which the business was founded still exists and has

not been discarded. People know that their money goes farther at J. C. Penney Company's—and as long as folks are interested in dependable merchandise and want to save at the same time, this Store will continue to grow.

At J. C. Penney Company's Store we do not depend on skimmed merchandise, irregulars, seconds, bankrupt stocks, etc., to make our low prices. Here a yard is a yard, Rayon is Rayon, silk is silk, cotton is cotton, wool is wool—everything must be up to the J. C. Penney Co. high standard of quality.

Honest Value Giving and rapid turn-over of stocks, made possible through our enormous Buying-Power, is the whole secret in a nutshell.

Over twenty million automobiles are rolling in the United States. There's vast buying power for you!

Today - right now - in this prosperous year of 1926 - the grouping of these known buyers for aggressive advertisers is a mighty big business indeed - and growing

These millions of indiscriminate names constitute a mass of buyers which must be divided - under a really modern system - into dozens of classifications and groupings

A combined and synchronized method of checking and revising makes the Automobile Owner list unquestionably the most profitable for users of Direct - Mail - Advertising
